

**Self-aggregated perfluoroalkylated hexa-peri-hexabenzocoronene fibers observed by cryo-SEM and fluorescence spectroscopy.** Aebischer, Olivier F.; Aebischer, Annina; Tondo, Patrick; Alameddine, Bassam; Dadras, Massoud; Guedel, Hans-Ulrich; Jenny, Titus A. Department of Chemistry, University of Fribourg, Fribourg, Switz. *Chemical Communications* (2006), (40), 4221-4223.

**Abstract**

The self-assembled architectures in soln. of a new HBC deriv. bearing perfluoroalkylated side chains were studied by optical excitation and emission spectroscopy and correlated to cryo-SEM, a new technique in org. chem.
