

Synthesis of perfluoroalkylated bulky triarylamines. Alameddine, Bassam; Savary, Corinne; Aebischer, Olivier; Jenny, Titus A. Chemistry Department, University of Balamand, Tripoli, Lebanon. *Synthesis* (2007), (2), 271-276.

Abstract

The synthesis of two new tris(phenyl)amine compounds bearing perfluoroalkylated side chains is described. Good thermal stabilities combined with a blue emission make these compounds promising candidates for materials applications.
