1	he delayed the first & second major exams from the original date that decided in the syllbus then t problems we faced related with the other exams.
2	he is very kind and many times he cares about our conditions if we are overwhelmed by the major helps us usually , but his exams his exams are fiiiiiiiiire i hope he makes them more easy or more
3	Our teacher think this is a 4 CH subject so he give us lots of things(Hws,Quizzes,problems and extra so we become bored at the end and it takes other subject time. even he give us Hw which should b final exam!!! It was going to be the best subject but with this instructor it is the worst.
4	I suggest that the lab and the lecture should be in the same semester, not separate.....
