

List of Projects

No.	Topic	StID
1	Analysis and simulation of basic service disciplines for a polling system	927863
2	Simulation and evaluation of an Integrated Services IEEE802.11 network	220138 964876
3	Simulation and evaluation of IEEE802.11 network support for real-time services	952361 969615
4	TCP/IP window and slow-start study over wireless channels	220564
5	Sliding window protocols (Go-back-N and Selective-Rject) analysis and simulation	960831
6	Queuing system calculator/simulator	961438
7	Analysis and simulation of an m-terminal polling system where gated-limited service discipline is utilized
