Counseling Gifted Students

بروفيسور ترايسي كروس

Tracy L. Cross, Ph.D

وصف موجز لمحتوى الورشة:

The workshop on Guidance and Counseling has been designed to accomplish several outcomes. To that end a combination of teaching approaches will be utilized including lecture, discussion, and hands-on activities. Participants are requested to bring written descriptions of their guidance and counseling components of their summer programs to the workshop. By the conclusion of the workshop participants will:

- 1) understand the unique characteristics of gifted children.
- 2) understand and deal with social and emotional problems of gifted students.
- 3) design ways of communication with students, parents and teachers.
- 4) develop and be prepared to implement guidance and counseling activities regarding social and emotional needs of gifted students.
- 5) design career counseling activities for gifted students.
- 6) use the National Association for Gifted Children standards as a guide to prepare to assess their guidance counseling program.
- 7) develop ways of reporting social/emotional problems and procedures that are taken to overcome them.
