**Subject:** APSCC - MPIS - 08 Status of paper 9

Dear Adnan Abdul-Aziz Gutub,

We are happy to inform you that your paper entitled "RGB Intensity Based Variable-Bits Image Steganography", submitted to First International Workshop on Multimedia, Information Privacy and Intelligent Computing Systems within the 2008 IEEE Asia-Pacific Services Computing Conference (APSCC 2008), December 9-12, 2008, Yilan, Taiwan, has been accepted for inclusion in the proceedings.

Below, you will find attached the reports of the reviewers. Please consider the reviewers' comments carefully when preparing the final version of your paper.

The camera-ready copy of your paper is required before September, 15, 2008.

You must access the <http://grid.chu.edu.tw/mpis-08//SubmitPaper.php> upload interface and enter your id and password.

Please note that any delay may prevent the inclusion of your paper in the proceedings. Please follow the instructions found in order to prepare your final version.

The site also provides all necessary information for conference registration and hotel accommodation.

Best regards,

MPIS-08 PC chair - APSCC 2008

**Adnan Gutub**

**Subject:** APSCC 2008: Author Kit

Dear Author:

Congratulations! We have been notified that your paper has been accepted for publication in the proceedings of the **2008 IEEE Asia-Pacific Services Computing Conference (APSCC 2008)**.

I have created an online author kit that provides instructions regarding

- page limitations
- paper formatting---Please remove all page numbers.
- paper and copyright deadlines
- copyrights
- reprints
- paper submission---You will see notification regarding your successful paper transmission in the pop-up window. No additional e-mail confirmation will be mailed.

IEEE PDF eXpress is not a submission site. After reviewing your paper and checking for accuracy, authors must follow the submission instructions found at the author kit Web site.

**Use only the recommended fonts: Times, Times Roman, Times New Roman, and Helvetica. Be sure to embed and subset all fonts.**

**Note the following:**

- 1) For users of non-Windows-based systems: We have tested the online submission process and we find that, in most instances, authors who use a Windows-based system do receive notification of successful paper transmissions. Your mileage with other systems may vary but please feel free to try.
- 2) Authors do not need to compose their documents using a Windows-based system.
- 3) We will check all papers and notify you if we find problems with your documents or if we have not received your work.
- 4) Please understand that, due to our full workload, we cannot acknowledge receipt of paper and copyright form. We will contact you only if problems arise.
- 5) Getting pdflatex to generate embedded fonts for the 14 standard ones, you may wish to access this Web site---

[http://users.rsise.anu.edu.au/~luke/embedded\\_fonts.html](http://users.rsise.anu.edu.au/~luke/embedded_fonts.html)

These instructions are for Linux-based systems, but the basic information (the name of the file to edit, what changes to make to it, and what to do to update the other associated configuration files) applies to a Windows-based system.

You can access this author kit as follows:

[http://www.ieeeconfpublishing.org/cpir/AuthorKit.asp?  
Community=CPS&Facility=CPS\\_Dec&ERoom=APSCC+2008](http://www.ieeeconfpublishing.org/cpir/AuthorKit.asp?Community=CPS&Facility=CPS_Dec&ERoom=APSCC+2008)

Look forward to receiving your contribution!

Silvia
