د. قطب تلقيت ملاحظات من تقييم الطلاب أغلبها رائع جدا عكس الفصل الماضي (أحببت ان تشاركني فرحتي):-  
 خصوصا ان مشارك في الانجاز عندما ساعدتني بالخروج من مرحلة الاحباط الفصل الماضي.

اتمنى ان يركز في وضع الاسئلة التي تكون مناسبة للطلاب وليس الاسئلة التي تحتوي على مايسمى بتحدي الطالب

the BEST doctor EVER...loves his students and his students love him... May Allah Bless him 2

Wish him all the best , he is trying to keep his students alert to everything regarding the subject in a very nice way . 3

I Love this instructor, he cares about students, pushes them to thier potentials in his innovative way. He is just .AWESOME 4

he is one of the best instructors (if not the best) I had , very concerned about student understanding and I like his .style in teaching 5  
 .his problem in the way he wright Question in exams

.Thank you very much for your effort  
 .very good teacher 6

Mr.HAZIM SELMI teach COE 353 which is given to MIS student. He likes to make the course hardar than it is.he  
 explanes things outside the book and the material.He should change his way of teaching 7

he is very democratic 8

I think the book is old, I understand alot of the material from what Dr. Hazim explains during lecture time not from  
 .the book 9  
 besides. if we take more chapters with less details i think it will be better for us as CIM students then going on few  
 .chapters in depth

شكرا لك لقد كان لي الشرف بالدراسة عندك  
 و أشكرك على الشفافية و الديمقراطية  
 و المرونة في أوقات الإختبارات التي تجعل الطالب مرتاحا كثيرا 10

An interesting subject and a more interesting istructor. The instructor Dr.Hazim is one of the most devoted  
 instructors I ever met, although frankly that cannot be easily noticed. He is very efficient in teaching, grading and  
 .answering questions 11

The only improvement I would like to add is giving lots of homeworks, especially in the critical parts of the course  
 .such as the data rate and watt and db problems  
 .i like the instructor way of teaching and how he treat his students

the exams are not that difficult but the essay parts usually not easy, i don't know maybe that just me, i never liked  
 the essay questions 12
