This is to certify that Mr. Ayman Al Bassam was a BS student at the Department of Computer Engineering (COE) at King Fahd University of Petroleum & Minerals (KFUPM), Dhahran, Saudi Arabia.

During his studies period between February and June, 2009, Ayman worked for four months (one semester) as lab administrator for the Wireless Sensor Networks course (COE 499). His duties during that period included:

- Preparing new material for each lab session.
- Conducting weekly lab sessions including instructing the students according to the material taught and helping them while performing the experiments.
- Giving homework exercises and grading them.
- Helping the students in various aspects of the course.

Based on his performance, dedication and professionalism during that period I see Ayman as highly recommended hardworking employee that would have much to offer for his future employer.

This letter is provided for Mr. Ayman Al Bassam based on his request. If you need any further information, kindly do not hesitate to send to me.
