Subject: CCSE Club

Dear Dr. Adnan:

I have a lot of ideas in my mind so I will try to talk about some of them.

Current problems of CCSE Club:

- ❖ Same managing routine every semester and the same titles of workshops.
- ❖ No interaction with the club members.
- ❖ There are no activities throughout the semester.
- ❖ Ineffective use of the resources provided to this club.
- ❖ No updates for the club website.

Solutions: (Our new vision)

- ❖ Conducting seminars about latest technologies and the presenters can be brought from outside or inside KFUPM.
- ❖ Technical activities and social activities.
- ❖ Exposing CCSE Club members to the industry experiences.

- ❖ Hosting exhibitions and summits.

- ❖ Conducting contests both technical and social.

- ❖ Members will be given equal chances to work with the club.

- ❖ CCSE Club news letter.

Our needs:

- ❖ Full cooperation with us where the limit is the sky.

- ❖ Ultra flexibility from KFUPM presidency.

Our advantages:

- ❖ We have a well-trained team that has organized up to now more than 10 seminars from A to Z and each one has worked as a volunteer in at least 2 conferences.

- ❖ A real strong connection with the ruling figures in the industry.

- ❖ Our team has exposed to all managerial issues, meetings, brain storming session, public work fundamentals,...

- ❖ Organized many social activities and participated in creating IEEE-KFUPM branch magazines from the very first issue.

Many other things will be discussed more in your office, In sha'a Allah. So, please tell me when can

I visit you?

Thank you again Dr. Adnan,

Yours,
Wael
