4.	Teaching	Am teaching the course Computer Aided Design of Digital Systems where PCs and WorkStations are used extensively.

V. Problems / Suggestions

Please provide us with a list of problems related to computer use in teaching at KFUPM

	Problems
1.	The smart class rooms need more technical staff for maintenance and reduction of downtime.
2.	
	Suggestions
1.	KFUPM should move as soon as possible towards a Wireless LAN solution for their Intranet.
2.	Also, its high time that ADSL was made available from homes, as this, in addition to other advantanges, will enable us to run servers on our PCs there.

Date: 14/12/2003

Note: Select:

    Save : to save your input for later modifications/additions (will not be forwarded to the department chairman/dean)

Submit : to forward your input to the department chairman/dean when finished.

    Reset : to clear the form.
