

## Configuration for starting OPNET

1. Open the `./ .cshrc` file under you Unix home directory

2. Add the following lines to the file:

```
# set path to opnet
setenv opnet_path /tools/opnet/10.0.A/sys/unix/bin

# set path to acroread
setenv vudoc_prog /usr/local/bin/X11/acroread

# modify your PATH
set path=($path $vudoc_prog $opnet_path)

# set lib for opnet
setenv opnet_lib /tools/opnet/10.0.A/sys/sun_sparc_solaris/lib

# set LD_LIBRARYPATH
setenv LD_LIBRARYPATH /usr/openwin/lib:$opnet_lib
```

3. Save and close the file

4. Run: `source ./ .cshrc`

5. Run: `opnet`
