TABLE OF CONTENTS

- Experiment # 1:** Sampling and Quantization
- Experiment # 2:** Transmission Media and Networking Components
- Experiment # 3:** Peer to Peer and Client-Server Network Models
- Experiment # 4:** IP Addressing and Subnetting
- Experiment # 5:** Point to point Local Communications and Remote Access Service (RAS)
- Experiment # 6:** Data Traffic Capture and Protocol Analysis
- Experiment # 7:** Intersystem Links - A visit to KFUPM Voice Network
- Experiment # 8:** Design of Simple Networks using CISCO ConfigMaker
- Experiment # 9:** Point-to-point LAN extension by bridges and LAN connectivity over a WAN by routers using DSL link
- Experiment # 10:** Design of Complex Networks using CISCO ConfigMaker
- Experiment # 11:** A Visit to KFUPM Data Network.
