

LIST OF EXPERIMENTS

1. Introductory Experiment
2. Series & Parallel Circuits Relationships
3. Series & Parallel Connections, CDR & VDR
4. Equivalent Resistance: Open & Short Circuits
5. Electrical Power And Energy
6. Computer Simulation Of A D.C. Circuit
7. A DC Circuit With A Capacitor & Kirchhoff's Law
8. Using Oscilloscope And AC Circuits
9. Three Phase Circuits
10. Electrical Switches And Lighting Circuits
