

King Fahd University of Petroleum and Minerals
Department of Electrical Engineering
EE 340 Electromagnetics
Dr. Hassan Ragheb
Design project

This project is due on June 3-2007 4:00 PM. A maximum of 2 students can work together and submit one report.

The electric and magnetic fields has important applications such as Cyclotron. The Cyclotron has different designs and capacity. Search the internet for latest development in the field of the cyclotron and write a report about it.

Report Format:

- 1- Introduction.
- 2- The Design .
- 3- Theoretical development.
- 4- Features.
- 5-Conclusion.
