

<b>UNIVERSITY TEACHING EXPERIENCE (Total of 35 years)</b>
---

**Teaching Experience at Bangladesh, British, Australian and Saudi Arabian Universities:**

Total university teaching experience in both undergraduate (Pass and Hons.) and postgraduate level will be of 35 years in 2003: 6 years in Bangladesh (formerly East Pakistan) Universities and 29 years in British, Australian and Saudi Arabian Universities. The medium of instruction throughout my student and service career was English.

**Courses Studied by me at Different Levels in Bangladesh and British Universities:**

- (i) B.A. Honours in Economics (by examination and a dissertation, Dhaka University 1957-60): Economic Theory, Applied Economics, Money and Banking, Public Finance, Agricultural Economics, Comparative Economic Systems & Development Economics, Quantitative Economics, International Economics.
- (ii) M.A. in Economics (by examination and a dissertation, Dhaka University 1960-61): Advanced Economic Theory, Monetary Theory, Theory of Economic Development, Monetary & Banking Policies.
- (iii) M.A. in Economics (by examination and a dissertation, Manchester University 1967-69): Economic Theory, Quantitative Economics, Development Economics, Monetary Economics, Agricultural Development, Industrial Economics, and Economic Policy & Public Finance.
- (iv) Ph.D. in Economics (by thesis, Leeds University 1969-74): Specialization in Money and Banking and Econometric Model-building with particular emphasis on the financial sector.

**Scholarship/Fellowship Award:**

- (i) Pakistan Government to finance my M.A.(Econ.) in Manchester, U.K.
- (ii) British Council/Pakistan Government to finance my Ph.D. in Leeds, U.K.

**Courses taught by me at Bangladesh, British, Australian, and Saudi Arabian Universities\***

- (i) *Universities of Dhaka and Chittagong, (now Bangladesh)* at the Undergraduate Honours level and/or Postgraduate level: Economic

Theory, Quantitative Economics, Development Economics, Money and Banking (1961 - 67).

- (ii) *University of Leeds, England* at the Undergraduate Honours level: Economic Theory (both Micro and Macro), Mathematical Concepts in Economic Theory, Economic Policy, Industrial Economics (1974 - 75).
- (iii) *University of New South Wales at Canberra, Australia*, at the Undergraduate (Honours and Pass) and Postgraduate level during different semesters for 22 years (1976-1997)

The following were my teaching activities:

(a) 1st year level: (i) taught 'Mathematics for Economists', for six years (1978 - 83). Took initiative in developing this new course on a sound footing. With that end in view, I wrote a Monograph titled "Mathematics for Economists, a Programmed Course" designed specifically to fit in with the computer-aided teaching to minimize tutorial hours and labour costs involved. This monograph is now the basis of this course. \*\*

(ii) Macro and Microeconomics (1997).

(b) 2nd year Pass & Hons. level: taught and developed the following courses:

- (i) Intermediate Microeconomic Theory and Policy for 6 years (1976 - 82)
- (ii) Intermediate Macroeconomic Theory and Policy for 9 years (1976 - 84)
- (iii) International Trade, Money and Finance for 14 years (1976 to 1997)

(c) 3rd year Pass & Hons. level: taught and developed the following courses:

- (i) Advanced Economic Theory and Policy (1992 - 93)
- (ii) International Money and Finance for 8 years (1990 to 1997)
- (iii) Australian Economic Policy Issues for 3 years (1981 - 83)
- (iv) Development Economics for 12 years (1981 to 1997)
- (v) Economies of East Asia and the Pacific for 2 years (a new course initiated and developed by me ten years ago) (1987 - 88)

(d) 3rd year and 4th year (Honours) only: initiated, developed and taught following new courses:

Applied Econometrics for 18 years (1979 to 1997 for 4th year Honours and 1987 to 1997 for 3rd year Honours)

(e) M.A. level: initiated, taught and developed the following new courses:

- (i) Econometric Forecasting for 7 years **(1988 to 1997)**
  - (ii) Applied Statistics for 6 years **(1990 to 1997)**
- (f) **Initiating Distance Education** in Applied Statistics (Post-Graduate) in **1997**. This involved the use of the latest Internet technologies to provide on-line tutorials, lecture materials published on the World WideWeb and Multi-Media conferencing capabilities for remote users.
- (iv) *Edith Cowan University, Perth, Western Australia (1997-2001):*
- (a) Investment Finance **and** Financial Econometrics (Masters **and** 4<sup>th</sup> year Honours, since **1998** )
  - (b) In addition, on and from semester 1, **1999**, I started teaching a research-oriented and information-technology-oriented econometric methodology course (Masters **and** 4<sup>th</sup> year Honours level) in which six Graduate students **and** nine Faculty members started attending.
- (v) *Australian National University, Canberra, Australia (since 2000):*
- On and from 2000, I am an **invited** lecturer in charge of "International Finance" Unit (a full unit on Multinational Financial Management and Financial Risk Management for their "Master of Financial Management" degree).
- (vi) *King Fahd University of Petroleum & Minerals, Saudi Arabia (Since Sept. 2001):*
- (a) International finance & Trade, Financial Management, Engineering Economics.
  - (b) A weekly three-hour workshop given to the Faculty at the College of Industrial Management on "Recent Advances in Econometric Research Methodology in Finance and Economics".

**\* A teaching portfolio in further detail is available on demand.**

**\*\*** The monograph consists of **seven chapters** covering about **350 typed-pages**. Each of the chapters takes the following form: (A) Instructions: (i) The concepts explained with the help of diagrams; (ii) Worked-out examples; (iii) Summing up; (iv) Exercise questions. (B) Solutions, in detail, to previous week's exercise questions which are based on application of maths to economic theory (both Micro and Macro).

**Recent and Current teaching activities at B.A. (Pass & Hons.) and M.A. level:**

Financial Management, International Finance & Trade, Engineering Economics (3rd **and** 4th year level); Applied Econometrics, Macroeconomics, Development Economics, and Economies of Asia and the Pacific (3rd year level); Advanced Econometrics, International Money and Finance, Investments, and Financial Econometrics (4th year Hons **and** Masters level); Applied Statistics, Econometric

Forecasting, Multinational Financial Management and Financial Risk Management (M.A. level).

**Nominated by the School of Finance & Business Economics(Edith Cowan University, Australia) 1999, for the Australian National Award for Excellence in Teaching.**
