JULY 05–10 2004, ANTALYA

Editorial Board

Akça Haydar, KFUPM
Ashyralyev Allaberen, Fatih University
Cheban David, State University of Moldova
Covachev Valéry, Sultan Qaboos University
Debnath Lokenath, University of Texas
Elaydi Saber, Trinity University
Rhandi A., University of Marrakech
Sui Sun Cheng, Tsing Hua University

Organizing Committee

Akça Haydar, KFUPM
Basem S. Attili, UAEU Al-Ain
Boucherif Abdelkader, KFUPM
Berezensky Leonid, Ben-Gurion University
Cho Yeol Je, Gyeongsang National University
Covachev Valéry, Sultan Qaboos University
Gyóri Istvan, University of Veszprem
Maksimov Vyacheslav, Ural State Polytechnic University
Stavroulakis Ioannis P., University of Ioannina

Scientific Committee

Agarwal Ravi P., Florida Institute of Technology
Alaoui A. , Université du Havre
Altmayer Kumud S., University of Arkansas
Arabnia Hamid R., The University of Georgia
Ashyralyev Allaberen, Fatih University
Azbelev N. V., Perm State University
Basem S. Attili, UAEU Al-Ain
Cahlon B., Oakland University
Covachev Valéry, Sultan Qaboos University
Debnath Lokenath, University of Texas – Pan American
Elaydi S., Trinity University
Gopalsamy K., Flinders University
Gyóri I., University of Veszprem
Hbid H. L., University of Marrakech
Kim Joung Kyu, Kyungnam University
Kirane Mokhtar, Université de La Rochelle
Kolmanovskii V., Moscow Inst. of Electronics and Mathematics
Maksimov V., Ural State Polytechnic University
O'Regan Donal, National University of Ireland
Sambandham M., Morehouse College
Stavroulakis Ioannis P., Univ. of Ioannina
Syam Mohamed I., UAEU Al-Ain
Vanmaele Michèle, Ghent University
Weiwei Sun, City University of Hong Kong

Preface

The International Conference 2004 – Dynamical Systems and Applications is a continuation of the previous two conferences which were held in 1997 and 1999 in Antalya. The objective of the conference is to provide a forum for researchers working on both differential and difference equations theory and its applications. Sharing ideas and discussions on the state of art in differential and difference equations theory and applications is aimed at stimulating the future development.

We received 168 papers from 26 different countries and out of this number 69 papers have been included in the proceedings.

The present volume contains mainly papers based on the talks given at the conference. All the papers are original works and have undergone the standard refereeing procedure. We hope that this volume will be of interest to a wide spectrum of specialist and researchers in differential and difference equations, functional differential equations and their applications.

We wish to thank all authors for submitting their work to 2004 – Dynamic Systems and Applications. Our special gratitude and thanks are due to Dr. Valéry Covachev for making the appearance of these proceedings possible.

We hope that there was ample time for discussion and opportunity to make new acquaintances. Finally, we hope that all participants experienced an interesting and exciting conference and enjoyed their stay in Antalya.

December 2004
