Assessment

Assessment for this course will be based on homework, lab, attendance, quizzes, three major exams and a comprehensive final exam, as in the following:

Activity	Weight
Quizzes, attendance and homework	4% ¹
Lab exam and lab homework	5%
Exam 1 (Chapters 1 & 2) Sunday 15/7/2007 at 4:30 pm – 7:00 pm in OAB	17%
Exam 2 (Chapters 3 & 4) Sunday 29/7/2007 at 4:30 pm – 7:00 pm in OAB	17%
Exam 3 (Chapters 5 & 6) Monday 13/8/2007 at 4:30 pm – 7:00 pm in OAB	17%
Final Exam (Comprehensive) Wednesday 22/8/2007 at 7:30 am – 10:00 am in 4-125	40%

Important Note: The homework can be submitted anytime earlier but when the chapter is completed in a certain class, *it must be well understood*, by all the students, that the homework for that chapter must be submitted in the *Saturday* just after that *and no need for an announcement concerning this regard in advance*.

¹ Every absence deducts ½% and to arrive late twice this equals one absence.

Notes:

1. Classes will meet in the lab for MINITAB whenever it is needed and *possible*.
2. Attendance on time is *very* important. Therefore, ½ % will be deducted for *each* one absence.
3. Mostly, attendance will be checked within the *first five minutes* of the class. Entering the class after that, is considered as one late, and *every two "lates"* equals to one absence.
4. In accordance with the university undergraduate bulletin, *eight* unexcused absences will result in a grade of *DN* and no need for any prior notice or warning.
5. All contacts or announcements between the instructor and the students are supposed to be held on the WebCT, so the student *must* check his WebCT inbox *at least once* a day.
6. Students will be required to carry a calculator with statistical functions in *every* class, quiz, or exam.
