

# Statistics

Research (StaR) Colloquium

## Visitor Lecture - parts 4 & 5 of 7

*Dept of Mathematics and Statistics*

*King Fahd University of Petroleum and Minerals*

<i>Presenter</i>	Prof S. Ejaz Ahmed Dept of Mathematics & Statistics University of Windsor
<i>Title</i>	<b>Improved Estimation Strategies - part 4 &amp; 5 of 7</b>
<i>Topic &amp; (Level)</i>	Statistical Estimation (Statistical Inference)
<i>Audience</i>	All KFUPM community are cordially Invited
<i>Date</i>	Tuesday, Nov 20, 2007
<i>Time</i>	<b>10:00 AM - 11:50 AM</b>
<i>Location</i>	Building 5, Smart Classroom # <b>201</b>

### Abstract

In this talk, I will present some improved estimation strategies for the parameter(s) of interest for a given statistical model. The statistical properties of proposed estimation will be critically assessed both analytically and computationally.

*Tea and Coffee will be served*
