| <i>Presenter</i> | <p>Prof S. Ejaz Ahmed Dept of Mathematics & Statistics University of Windsor</p> |
| <i>Title</i> | <p>Improved Estimation Strategies - part 6 & 7 of 7</p> |
| <i>Topic & (Level)</i> | <p>Statistical Estimation (Statistical Inference)</p> |
| <i>Audience</i> | <p>All KFUPM community are cordially Invited</p> |
| <i>Date</i> | <p>Tuesday, Nov 27, 2007</p> |
| <i>Time</i> | <p>10:00 AM - 11:50 AM</p> |
| <i>Location</i> | <p>Building 5, Smart Classroom # 201</p> |

Abstract

In this talk, I will present some improved estimation strategies for the parameter(s) of interest for a given statistical model. The statistical properties of proposed estimation will be critically assessed both analytically and computationally.

Tea and Coffee will be served
