

MIS105-Lab – Introduction to Computer Applications

Instructor: Irfan Ahmed Ilyas

MIS105 Lab Homework week#14

The Homework has 5 Questions listed in different sheets

Question#1 Use of Docmd Object

Build the form shown below with the following functionalities built on its command buttons. You are supposed to read the help to find exactly what commands you need from the list of command Docmd provided you.

- Maximize** Make the form maximize
- Minimize** Make the form minimize
- Hide All Buttons** Remove all buttons except "Show All button"
- Show All buttons** Show all the hidden buttons
- Open Query1** Open a query named "query1" (create a simple table, say student and write a simple query before you do this code)
- Exit Program** Quit the program (Microsoft Access should be closed automatically)

Applilcation to test Docmd

The screenshot shows a window with a blue title bar containing the text "Applilcation to test Docmd". The main area of the window is light gray and contains six buttons arranged in two rows and three columns. The buttons are: Maximize, Minimize, Hide All Buttons, Show All buttons, Open Query1, and Exit Program.
