Mr. Abdullaziz Al-dayel graduated in 1999 from the Physical Education and Movement Sciences dept., with a “very Good” grade and a “second-class honor”. During his work toward the degree of B. of ED, Mr. Abdullaziz Al-dayel has impressed me with his excellent performance in the classes I have taught him. ### To Whom It May Concern

I have known Abdulaziz Aldayel for many years. He was one of my students in the biomechanics and sports injury courses. He is rated always on top of his peers. He is highly regarded by his teachers and well respected. He is competent and rigorous in perusing his goals.

As the chair of the department during the time of his study, I have the opportunity to know Aldayel more. I have carefully followed him and seen him grow to be an honoree student.

He is eager to learn and has all the characteristics of graduate students. His research ability is well developed and he is not afraid of challenges. His work with me in the biomechanics lab was a prove of his Excellency.

I would not be hesitant to recommend Aldayel to any graduate program. I am sure that he will be a successful student and be an asset to any program.

Please feel free to contact me if you have any question regarding this recommendation.
