

THESIS SUPERVISION

The number of graduate students our Physics Department is very low and consequently I could not get a chance to have many for supervision during my stay at KFUPM. In addition we still do not have a PhD program in our department.

1. **Abu Azzah Ezzat Umar Abdullah**, Physics Department, “Localization and delocalization studies in one-dimensional electronic disorder systems”, M.Sc. **Thesis Advisor**, March (1998).
2. **Said Al-Marzoug**, Physics Department, “ Noise Effect on Nonlinear Wave Propagation “, M.Sc. **Thesis Advisor, Dcember (2002)**.
3. **Abdallah Al-Zahrani**, Physics Department, “ Wave Propagation inGain Media “, M.Sc. **Thesis Advisor, June (2005)**.
4. **Ahmad Al-Hasan**, Physics Department, “ New issues and problems in the Dirac equation and their solutions “, M.Sc. **Thesis Advisor, December (2005)**.

I was also co-advisor in few other M.Sc. thesis along with one Ph.D. thesis from USTO, Algeria.
