

## ICS 324-02 (072): Database Systems

### Assignment 3 - Part 2

**Assigned on May 12 - Due May 17**

This assignment is based on the reports submitted by each team in Part1 of this assignment.

1. Each team has to prepare/formulate **four** queries that should involve **at least two tables** from the database created by the team. **At least two of these** queries should involve **three tables**. **At least one** query should involve **some aggregate functions**.
2. Write the corresponding SQL query statements that will return the needed results in each of the four queries requested in part 1 above.

For this assignment, the members of each team are required to do the following tasks:

- 1) Meet to discuss the assignment, assign tasks to members and review the completed work.
- 2) Submit a formal report containing all parts 1 – 2 above.
- 3) Submit a system printout from Oracle showing the answers of the requested queries.
- 4) **The group leader should submit the team report through WebCT before 10:00 AM on the due date. The report should include the assignment of each member in the group.**

Good Luck

**Dr. Talal Maghrabi**
