

SWE 214—Introduction to Software Engineering, Fall 2006

Quiz: 5

Section: 1

Time: 20 minutes

Name:

ID#:

Question 1: [6 marks] State and explain two techniques for disambiguation of requirements.

Question 2: [6 marks] When the requirements are too complex to be described by the natural language, technical formal methods are used to specify these requirements. State three of these formal methods.

Question 3: [8 marks] What is a test case and (briefly) how can one derive test cases from the use cases?
