STUDENT COURSE EVALUATION QUESTIONNAIRE

Instructor's Name Assane Lo Course # 129 Semester Spring '06

Dear Student:

We would appreciate your candid comments on the following:

1. The instructor's presentation and board work.

- is very thorough and neat.
- explains things very well.
- ^{but} sometimes tends to go a little fast.

2. The instructor's knowledge of the material and ability to help you learn the material.

- is absolutely great!!

3. The instructor's responsiveness to questions in and out of the class and availability for help.

- is very good.

4. The instructor's homework assignments, exams, and other forms of assessment.

- very good assignments.
- exams are fair and are graded fairly as well.

5. Would you recommend this instructor to a friend? Why or why not?

Definitely recommended because he can "teach" math @ an undergraduate student's level and has a lot of patience.

Dear Student:

We would appreciate your candid comments on the following:

1. The instructor's presentation and board work.

Presents the material very well with clear representation of the course works. Uses examples that help learn the material and writes clearly for all to see.

2. The instructor's knowledge of the material and ability to help you learn the material.

Very knowledgeable in all areas of math. Able to answer just about all coursework questions asked and will find the answer if he does not know it.

3. The instructor's responsiveness to questions in and out of the class and availability for help.

Good with questions in class. However, not many office hours. He does appointments though, so that is nice.

4. The instructor's homework assignments, exams, and other forms of assessment.

Exams are well done with the material he has taught. No tricks or games, just the material needed.

5. Would you recommend this instructor to a friend? Why or why not?

Yes, very good calculus II teacher. Will help you when needed.

Instructor's Name Assane Lo Course # MATH 129 Semester 2nd

Dear Student:

We would appreciate your candid comments on the following:

1. The instructor's presentation and board work.

Pretty good - sometimes he seems nervous or talks himself into a big mistake in a problem, but he still explains things better than most instructors.

2. The instructor's knowledge of the material and ability to help you learn the material.

He definitely knows the material better than those in the tutoring room, and he makes sure we understand what he teaches, although we tend to get lost on the HW.

3. The instructor's responsiveness to questions in and out of the class and availability for help.

Very responsive, although it's hard to fit in a time that corresponds w/ office hrs.

4. The instructor's homework assignments, exams, and other forms of assessment.

The HW assignments don't always follow what we do in class but the exams are fair.

5. Would you recommend this instructor to a friend? Why or why not?

yes - he really gets across the material

STUDENT COURSE EVALUATION QUESTIONNAIRE

Dear Student:

We would appreciate your candid comments on the following:

1. **The instructor's presentation and board work.**

Most of the problems presented on the board helped to either understand the material or help on the homework.

2. **The instructor's knowledge of the material and ability to help you learn the material.**

He knows everything very well.

3. **The instructor's responsiveness to questions in and out of the class and availability for help.**

He always answers all questions. Although the answers may not always be right.

4. **The instructor's homework assignments, exams and other forms of assessment.**

Tests are hard but HW is good.

5. **Would you recommend this instructor to a friend? Why or why not?**

Yes

STUDENT COURSE EVALUATION QUESTIONNAIRE

Dear Student:

We would appreciate your candid comments on the following:

1. The Instructor's presentation and board work.

both were good. He did a good job of writing all the important concepts on the board. The only thing that got in the way was his accent, but it ~~did~~ didn't impede the learning process

2. The Instructor's knowledge of the material and ability to help you learn the material.

It was very clear that Assone knows the material. He was able to explain it well enough that it was easy to understand

3. The instructor's responsiveness to questions in and out of the class and availability for help.

Both were excellent

4. The instructor's homework assignments, exams and other forms of assessment.

Homework is Homework.
Exams: some were too long.

5. Would you recommend this instructor to a friend? Why or why not?

Yes, if that friend had a good grasp of Algebra & geometry.

STUDENT COURSE EVALUATION QUESTIONNAIRE

Dear Student:

We would appreciate your candid comments on the following:

1. **The instructor's presentation and board work.**

He did a great job of being thorough and explaining the concepts. I would recommend pre working some of the problems before class to make sure there isn't any difficulties

2. **The instructor's knowledge of the material and ability to help you learn the material.**

He had a full understanding of the materials and was always willing to work one-on-one for additional instruction

3. **The instructor's responsiveness to questions in and out of the class and availability for help.**

He always answered any questions or would find out the answers. He was always willing to help

4. **The instructor's homework assignments, exams and other forms of assessment.**

The homework was a little fast paced but I feel it was helpful in the end

5. **Would you recommend this instructor to a friend? Why or why not?**

I would but I would also mention how difficult the course is

Dear Student:

We would appreciate your candid comments on the following:

1. The instructor's presentation and board work.
He's very meticulous and thorough, and he goes through lots of examples. It's neat and easy to follow.

2. The instructor's knowledge of the material and ability to help you learn the material.
He's obviously very intelligent and knowledgeable about math. He really tries to make sure we understand the material.

3. The instructor's responsiveness to questions in and out of the class and availability for help.
Sometimes he is confused about what a student is asking, but almost always he answers the question.

4. The instructor's homework assignments, exams, and other forms of assessment.
The homework was fairly straightforward. The tests were okay. I did not like the 140 integration problems, but that's just because I procrastinate like no other.
