

Invited Seminars and Workshops

1. Competing in Global Markets: New trends in the 1990s, **Invited lecture, presented at the centennial year of Ithaca College, January 1994.**
2. Manufacturing Practices in Hampton Roads Area, **organized by Norfolk State University, and the center for Entrepreneurship.** Audiences include entrepreneurs and business owners in Hampton Roads area, Business School faculty, and NSU students, spring 1996.
3. Manufacturing Management: Recent Developments: Invited Lecture, Workshop on Manufacturing Management and Technology, held at **King Fahd University of Petroleum and Minerals**, June 10, 1997.
4. The Relationship between Advanced manufacturing Technologies and Manufacturing Capabilities: A Proposed Model, Workshop on Manufacturing Management and Technology, held at **King Fahd University of Petroleum and Minerals**, June 10, 1997.
5. Time-Based Technologies and Manufacturing Performance: a workshop, the ninth annual meeting of the **International Academy of Business Disciplines**, Orlando Florida, and April 1997.
6. Total Quality Management: Theory and Practice, **Kuwait University**, November 8, 1997.
7. Achieving Excellence in Teaching: a round table discussion with the faculty of Management and Marketing, **Kuwait University**, Nov. 10, 1997.
8. Measuring the Intensity of TQM and Its Impact of Manufacturing Flexibility, Guest Speaker at the conference on Administrative Sciences: New Horizons and Development, held at **King Fahd University of Petroleum and Minerals**, March 16-18. 1998.
9. Differences in Quality Management Tools, Techniques and Strategies among the Users and Non-Users of Flexible Manufacturing Systems, Guest Speaker at the conference on Administrative Sciences: New Horizons and Development, held at **King Fahd University of Petroleum and Minerals**, March 16-18. 1998.
10. Total Quality Management as a Time-Based Technology: A Theoretical Framework and Empirical Investigation. A seminar presented at to the faculty of Technology Management at the **Arabian Gulf University**, Bahrain, and June 24, 1998.
11. Recent Developments in Quality Management: Toward an Empirically Based Theory of Quantum Quality. **Guest Speaker at the first Gulf International quality conference: quality beyond 2000.** The conference was held in Bahrain, April 10-12, 2000 and was sponsored by the Bahrain Society of Engineers and the Saudi Arabian Quality Council.
12. Achieving Excellence in Research and Teaching: a round table discussion with the faculty of Management and Marketing, **MSA University, EGYPT** June 2001.

13. Preparing the Scholarship Mindset: How to get Published in Top Tier Journals in Your Field Research Seminar, *Kuwait University, December 2001.*
14. World-Class Manufacturing and Time-Based Performance, International Conference on Business, Technology and Decision Making (Keynote Speaker), *Kuwait University, Kuwait March 18-22, 2002.*
15. Testing Youssef's Model of the TQM Intensity, International Conference on Business, Technology and Decision Making (Keynote Speaker), *Kuwait University, Kuwait March 18-22, 2002.*
16. The intensity of TQM activities in Manufacturing Firms, seminar presented to the faculty *at King Fahd University's College of Industrial Management, February 14, 2005.*
17. Publishing in Top Tier Journals in your field, Seminar presented to the faculty at *King Fahd University's College of Industrial Management, February 28th, and March 7th, 2005.*
