In “Recent Advances in Dye Sensitized Solar Cells,” there is an error in page 8 (Section 3, first column, point (iv)). The error is “low volatility”; it creates a conflict with the statement “developing low volatile” on the same page 8 (Section 3, second column, point (iii)). Therefore, “low volatility” on page 8 (Section 3, first column, point (iv)) must be replaced with “high volatility.”
