

(Polymers)

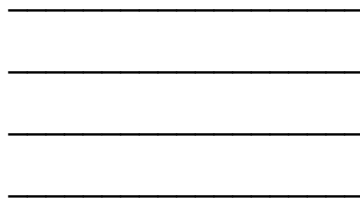

—

(linear polymers)

.

(cross-linking polymers)

linear

Cross-linking

(condensation polymers)

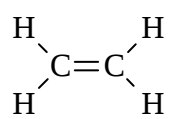

(addition polymers)

▪

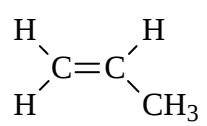

(initiator)

(free radicals)

: ____

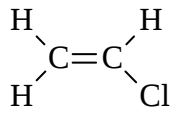

—

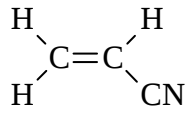

propylene

polypropylene

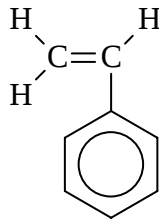

Vinyl chloride

polyvinyl chloride (PVC)

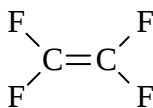

Acrylonitrile

polyacrylonitrile

styrene

polystyrene

tetrafluoroethylene

Teflon

(copolymer)

: _____

▪

(Dacron)

(nylon)

—
