COE 449: Network Security Engineering
HW 1
Posted: 20 October 2008   Due: 27 October 2008

Give brief and precise examples or cases (in your own words) to clarify the following statements:

1- Compromise of confidentiality leads to compromise in integrity.
2- Prevention is more important than detection and recovery.
3- Detection is more important than prevention and recovery.
4- Recovery is more important than prevention and detection.
