KING FAHD UNIVERSITY OF PETROLEUM & MINERALS Electrical Engineering Department

EE 411 Engineering Design Report Handout # 4

Table 1 shows an outline of a typical engineering report. The purpose for the report is to document all your work and to tell the intended reader how you approached your design project and why you made certain decisions. Documenting the reasoning behind your decisions is especially important: you or someone else might need to address similar problems in the future.

TABLE 1 AN OUTLINE OF A TYPICAL ENGINEERING REPORT

Abstract Concise summary of the essential points in report: purpose or problem, method, results, conclusions, recommendations Introduction Background, problem or need, purpose of report, overview. Methodology Engineering Design, Construction, operation. Results Results of the engineering. Compare with expected results. **Conclusions** Interpret the results; what does it all mean? Recommendations Based on engineering so far, where to go next? A list of all sources acknowledged in your citations **Bibliography**

Requirements of the Engineering Design Report

- 1. **Typing**. Avoid printers with fancy print. Type on one side of the paper only. Absolutely No white out or hand-correction of errors.
- 2. **Paper**. Use only white, <u>A4</u> paper.
- 3. **Spacing**. The report must be <u>double-spaced</u> throughout.
- 4. **Page numbers**. Number all pages consecutively throughout the manuscript in the <u>upper right-hand corner</u>, <u>one half inch</u> from the top.
- 5. **Margins**. Except for page numbers, leave <u>one-inch</u> margins at the <u>top</u>, <u>bottom</u>, and <u>right-hand side</u> of the text. Leave a <u>one</u> and <u>one-half</u> margin on the <u>left side</u> for binding purposes.
- 6. **Drawings**. Must be computer-generated or hand-drafted using special templates. No photocopies from books, magazines or technical articles.
- 7. **Table of contents**. Must be included. Most word-processors automatically produce a table of contents.
- 8. **List of figures.** Must be included.
- 9. **Title page**. Start 2.0" from top. Type King Fahd University of Petroleum and Minerals, Double space and then type Electrical Engineering Department. Space down 6 DS and Type the title ALL IN CAPITAL LETTERS. Then space down 4 DS and Type your names, each on a line with one DS in between, capitalizing the first letters only. Space down 2 DS and Type "Supervised by Dr. X. Advisor". Then space down 2 DS and type the date: June , 1997.
- 10. **Binding.** The paper is to be securely bound at the left with an appropriate binding.
