Lab Project of EE 390

Term 071

Due Date: 12ᵗʰ January, 2008

Submission: Please upload (in WebCT) the projects and make an appointment to demonstrate a working prototype

Project Description:

- Modify the last lab work to include the sensors in the traffic light system, which will over-ride the timing program if there is no car present in the road with priority.

- Detail of this project is also described in the class.
