King Fahd University of Petroleum and Minerals
College of Computer Science and Engineering
Information and Computer Science Department
Spring Semester 072
SWE 312 – User Interface Design
Project 1 (10%)

Objective

The main objective of the project is to evaluate the user interface of the selected application.

Problem

Choose a website, application or an equipment of your choice. Use the following heuristics
http://www.id-book.com/catherb/Website_heurs.php . Give a presentation in the class to show
your evaluation of the interface.

Report

The report for the project must include the following sections:

1. **Introduction**
2. **Problem Statement**
3. **Evaluation**
   - Describe the process and results of the evaluation.
4. **Conclusion**
