## B. Tentative plan for all the coming terms towards graduation\*

- 1. Please present a working plan to your advisor before the pre-registration.
- 2. Notice that some courses are offered once a year (either fall or spring).
- 3. Carefully choose the courses for each term and verify the co/prerequisites.

### C. Calculation of units taken in the program

- 1. Record the total number of units completed/scheduled in each term.
- 2. If applicable, count the 9 units for Coop as required.
- 3. Sum up the required units (107 for ICS/summer-training, 113 for ICS/Coop).
- 4. Sum up the elective units (12 units must be ICS electives).
- 5. Compute the total units (at least 131 units for ICS major)

| Term  | Units    |          | Remarks:                            |
|-------|----------|----------|-------------------------------------|
|       | required | elective |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
|       |          |          |                                     |
| Total |          |          | Total units: $\geq 131$ (ICS major) |

### **D.** Advisor Consultation

- 1. Once you have a complete plan, see your advisor for registration and comments.
- 2. Verify with your advisor that all required courses are in the plan or already taken.
- 3. Verify that the elective courses are in the recommended electives list.
- 4. Go over the check list and make sure that all other requirements are met.
- 5. Stick to this plan as much as possible and consult your advisor for modifications.

#### E. Advisor's Notes
