

## Grading Policy

**Instructor:** Dr. Abdulaziz Aljalal  
**Office:** 6-109  
**Tel:** 1017  
**Office Hours:** U 09.00-09:50  
T 09:00-09:50 10.00-10:50  
R 09:00-09:50  
**Email:** aljalal@kfupm.edu.sa  
**Course page:** <http://faculty.kfupm.edu.sa/phys/aljalal/phys306.htm>

### Course Description from the Undergraduate Bulletin:

A continuation of Physics 305. Topics covered include electrodynamics; electromagnetic waves; electromagnetic radiation and relativity.

### Textbook:

“Introduction to Electrodynamics”, David J. Griffiths, 4<sup>th</sup> edition.

### Grading Policy:

Homework	15%
Project	15%
6 Exams	70%

Homework after the deadline will not be accepted. You may discuss your homework with other students but you are not allowed to copy their work.

The topic of the project is open, but it should be related to the material of the course. You are advised to choose the topic of your project as soon as possible but no later than 01 Apr. 2018. Here are some suggestions: review papers from American Journal of Physics or European Journal of Physics, write about advances or history, develop a computer program, or build a device. You are strongly encouraged to discuss your progress in your project with me during office hours. At the end of the term, you will give a presentation about your project in front of your fellow students.

As per KFUPM policy, a DN will be assigned if the number of unexcused absences exceeds one-fifth of the total class hours scheduled for the course. That is nine lectures.

King Fahd University of Petroleum and Minerals
